

Older Adult Activity: An Overview

DECEMBER 22, 2023

KEY POINTS

- If you are 65 or older, you need aerobic, muscle-strengthening, and balance activities each week.
- You can add regular physical activity into your life in a variety of ways.
- People benefit from physical activity throughout life, including as they age.

Recommendations

Every week, adults 65 and older need:

- [Aerobic physical activity](#) that includes:
 - At least **150 minutes** at moderate intensity. This could be 30 minutes a day, 5 days a week.
 - Or 75 minutes at vigorous intensity.
 - Or an equivalent combination at moderate and vigorous intensity.
- At least **2 days** of activities that [strengthen muscles](#).
- Activities to [improve balance](#).

See [what counts](#) as aerobic, muscle-strengthening, and balance activities. Also, see how to tell if aerobic physical activity is [moderate or vigorous](#).

If you have trouble meeting these recommendations, be as physically active as your [abilities and conditions](#) allow. **Remember that some physical activity is better than none at all.** Your [health benefits](#) will also increase with the more physical activity that you do.

What you can do

Keep these tips in mind as you add physical activity to your life as an older adult.

[Adding Physical Activity as an Older Adult](#)

There are many ways to meet physical activity recommendations.

Sample weekly schedules

Here are some ways to meet the physical activity recommendations each week.

<p>Example 1</p> <p></p> <p>Moderate-intensity aerobic activity such as brisk walking for 150 minutes (for example, 30 minutes a day, 5 days a week)</p> <p>AND</p> <p></p> <p>Muscle-strengthening activities on 2 or more days a week that work all major muscle groups (legs, hips, back, abdomen, chest, shoulders, and arms).</p> <p>PLUS</p> <p></p> <p>Balance activities such as walking heel-to-toe or standing from a sitting position.</p>	<p>Example 2</p> <p></p> <p>Vigorous-intensity aerobic activity (such as jogging or running) for 75 minutes (1 hour and 15 minutes) every week</p> <p>AND</p> <p></p> <p>Muscle-strengthening activities on 2 or more days a week that work all major muscle groups (legs, hips, back, abdomen, chest, shoulders, and arms).</p> <p>PLUS</p> <p></p> <p>Balance activities such as walking heel-to-toe or standing from a sitting position.</p>	<p>Example 3</p> <p> </p> <p>An equivalent mix of moderate- and vigorous-intensity aerobic activity</p> <p>AND</p> <p></p> <p>Muscle-strengthening activities on 2 or more days a week that work all major muscle groups (legs, hips, back, abdomen, chest, shoulders, and arms).</p> <p>PLUS</p> <p></p> <p>Balance activities such as walking heel-to-toe or standing from a sitting position.</p>

Benefits

Physical activity can prevent or delay many of the health problems that seem to come with age. It also helps your muscles grow stronger so you can keep doing your day-to-day activities without becoming dependent on others. For more information, see:

The logo for "Active People, Healthy Nation" is a circular emblem. The outer ring contains the text "CREATING AN ACTIVE AMERICA, TOGETHER" in blue. The center features the words "ACTIVE PEOPLE, HEALTHY NATION" in bold black letters, with a small "SM" trademark symbol. Below the text are five colorful icons representing different types of physical activity: a person on a bicycle (blue), a person walking (blue), a person running (orange), a person jumping (purple), and a person in a wheelchair (green).
