## Why Give to the NDSC

People often say they give in order to "make a difference." This phrase means different things to different people. Donating to the National Down Syndrome Congress (NDSC), means you WILL be making a difference and helping us promote the interests of people with Down syndrome, to **educate** through awareness, to **advocate** and ensure their rights are recognized and protected, to **empower**, and to **inspire** and reshape the way people understand and experience Down syndrome.
