Certified Nurse-Midwives and Certified Midwives

About Midwifery

Midwifery as practiced by certified nurse-midwives (CNMs) and certified midwives (CMs) encompasses the independent provision of care during pregnancy, childbirth, and the postpartum period; sexual and reproductive health; gynecologic health; and family planning services, including preconception care.

Midwives also provide primary care for individuals from adolescence throughout the lifespan as well as care for the healthy newborn during the first 28 days of life.

Midwives provide care for all individuals who seek midwifery care, inclusive of all gender identities and sexual orientations.
